

SANTEX RIMAR GROUP

SANTEX RIMAR GROUP PRESENTS SANTEX RIMAR INDIA

Trissino (Vicenza, Italy), November 17th 2016 - Santex Rimar Group has established a strong presence in India since 1997 with the opening of the first subsidiary in Bangalore moved to Coimbatore at the beginning of 2000.

To achieve this commitment Santex Rimar Group is today expanding its presence through the new organization of **Santex Rimar India** which will be the direct contact of the Group sales and service in the Country to ensure continuous support, improved quality and more efficiency for customers. Products portfolio includes Santex, Sperotto Rimar, Cavitec, Isotex, Solwa and SMIT.

“Since India is a key global market for Santex Rimar Group we want to build closer relationships with our customers to fulfil all their needs faster and better, from pre-sales to after-sales service” says **Stefano Gallucci, Group CEO**, who concludes: “Customers now can be confident in dealing directly with Group sales networks and engineering: we have recruited talents who are new proud Group members looking forward to enhancing customer relations. We have already installed more than 4,000 machines all over the Country and we want to keep growing together with our customers”.

Santex Rimar India facilities are based in **Coimbatore** and in **Mumbai**. Bakubhai Ambalal, SMIT agency for more than twenty years, is based in Mumbai and represents SMIT in the Northern part of the Country. Since Research and Development is at the heart of our growth, the Group is also in close contact with different institutes where researchers and students are trained: technical textile technology is taught in Surat on Cavitec’s plant while weaving technology is practiced in Ichalkaranji on SMIT looms.

Santex Rimar Group is uniquely experienced in providing technology for weaving, textile finishing, technical textile and green solutions. Productivity, quality, reliability and energy saving are key values for Santex Rimar Group: new sales and service organization is taking care in a direct and confidential way not only of customers’ needs but also of their future developments.
