SANTEX RIMAR GROUP: TECHNICAL TEXTILE AND NONWOVENS DIVISIONS AT INDEX

Trissino (Vicenza, Italy), March 22nd 2017 – **SANTEX RIMAR GROUP Technical Textile and Nonwovens Divisions** are looking forward to meeting you at **INDEX 2017**. The Trade Show is the largest global meeting place for the nonwovens market, which brings together key players, suppliers and customers from every dimension of the innovative world of nonwovens.

INDEX is the occasion to promote **Cavitec Hotmelt Coating and Laminating** as well as to present the new release of the **SANTATHERM** machine, which has been designed to cope with the needs of all nonwovens processes. The machine can be used for **thermobonding** as well as for **drying**, meeting every requirement in terms of speed or width, thanks to its modular design. Moreover, the availability of different nozzle systems allow the adaption to the respective process requirement, making the machine suitable for **Airlaids, Wetlaids, Airlay, Direct Carded, Card-Crosslapped and also Spunmelt processes**.

SANTATHERM advantages and unique selling points are identified with: **precision bonding** at all width and speeds, for either highest loft or density; **reliable workhorse**, dealing with dusty environments; **energy efficiency**.

CAVITEC is specialized in designing and manufacturing of **Coating and Laminating Lines for Hotmelt Adhesives**; the applications are very different and go from **automotive** interior over textile web laminates and **home textiles** through all technical textiles as breathable membranes.

In terms of technologies Santex Rimar Group has invested in mechatronics to make **smarter lines, heat management, nonwovens, scattering and thermoplastic solutions** to allow the customers entering new markets. The Group is constantly looking for new opportunities to widen the range of products, textile finishing and technical textile – particularly for nonwovens. Furthermore, the Group is developing **new integrated technologies to improve the ovens** to offer opportunities at the forefront to our customers. **Sustainability** is key to the business of Santex Rimar Group's customers who will soon or are already facing problems with energy consumption, productivity, water and air pollution, use of chemistry.

SANTEX RIMAR GROUP is one of the leading players in the world market of machine manufacturers for weaving, textile finishing, nonwovens, technical textiles and green technologies for water treatment and drying processes. As a technology partner for weaving, knitted, woven fabrics, nonwovens and green solutions the Group started as different companies that in 2015 have evolved into **SANTEX RIMAR GROUP**: **Smit** is globally recognized as a forerunner in weaving technology; **Cavitec** and **Isotex** lead the technical textile machinery market; **Has, Santex** and **Sperotto Rimar** produce machinery for textile finishing; **Solwa** provides eco-friendly machinery for water treatment and waste management.

SANTEX RIMAR GROUP is present at INDEX 2017 | Geneve, April 4th – 7th | Booth 1514
